Article 8 – GRIEVANCE PROCEDURE

8.01

- a) It is the mutual desire of the parties hereto that complaints of employees shall be dealt with as quickly as possible and it is generally understood that an employee has no grievance until he has first given to the foreman or supervisor, an opportunity of dealing with the complaint. The settlement, resolution or withdrawal of complaints or grievances prior to referral to arbitration, expedited arbitration or mediation shall not constitute a precedent or be used as a precedent in future cases by either the Company or the Union and shall be without prejudice to the position of either party.
- b) If a grievance is not settled at the expiration of time limits as set out in Article 8, the Union may then advance the grievance to the next step in the outlined procedure, except that this will not apply to grievances extended by mutual agreement.

8.02

Step 1

Before the Union submits a grievance, the employee shall, within twenty-one (21) days of the date on which the employee became aware or reasonably ought to have become aware of the circumstances giving rise to the complaint, request a meeting with his Immediate Supervisor at which meeting he will provide the details of the complaint. A steward will accompany the employee at the meeting. If there is no steward on shift from his department, he may request a steward from another area.

The meeting will be scheduled by the Company. The Parties' stated preference is for the meeting to be held on the earliest convenient day on which the said meeting's participants are at work at the same time, but said meeting in any event must take place within twenty-one (21) days in accordance with the foregoing paragraph, except where the employee requested the meeting on the twentieth (20th) or twenty-first (21st) day after the date on which the employee became or reasonably ought to have become aware of the circumstances giving rise to the complaint, in which case the Company will have two (2) days, from the date on which the request is made, to arrange for and hold the meeting.

8.03

Step 2

- a) If the outcome of the meeting referred to in 8.02 is not satisfactory to the employee concerned, or if the Company failed to arrange for and hold the meeting referred to in 8.02, and the Union wishes to advance the matter, the steward will record the employee's complaint in a grievance form, which will provide details of the complaint and remedy sought, have it dated and signed, and then submitted to the employee's immediate supervisor by hand or to the Company by facsimile transmission. From that point on, the complaint will be referred to as a grievance. The grievance must be submitted to the Company within seven (7) days following the date of the meeting referred to in 8.02, however, in no circumstances may the Union submit a grievance

beyond the twenty-eighth (28th) day after the date on which the employee became aware or reasonably ought to have become aware of the circumstances giving rise to the complaint.

- b) Where the Union wishes to advance a group grievance or discipline grievance, a Union representative must, within fourteen (14) days of the date on which the Union became aware or reasonably ought to have become aware of the circumstances giving rise to the group grievance or discipline grievance, record the complaint in a grievance form, which will provide details of the complaint and remedy sought, have it dated and signed, and then submitted to the Company by facsimile transmission.
- c) Upon the submission of a grievance, the Company must arrange for a meeting between an Area Manager, supervisor, steward and a Negotiating/Grievance Committeeman to discuss the grievance, such meeting to be held at the earliest convenient day on which the said meeting's participants are at work at the same time, but in any event within fourteen (14) days of the submission of the grievance. If the steward's or Negotiating/Grievance Committeeman's scheduled shifts do not overlap within fourteen (14) days of the submission of the grievance, either the steward or the Negotiating/Grievance Committeeman will attend the meeting on an overtime basis. If the steward or Negotiating/Grievance Committeeman or their delegates do not attend the said meeting, the grievance will be deemed to be withdrawn. The Area Manager will give his reply, in writing, within two (2) days after the said meeting has been held.

8.04

- a) If the Area Manager's reply referred to in 8.03(c) is not satisfactory to the Union, or if the Area Manager, or his designate, failed to reply, and the Union wishes to advance the matter, the Union may submit a request for disclosure of relevant information to the Company by facsimile transmission. The request for disclosure of information must be accompanied by a non-prejudicial outline of the Union's argument, the purpose of which is to assist the Company in its determination of what constitutes relevant information. The request for disclosure and accompanying argument outline must be submitted to the Company within seven (7) days following the meeting referred to in 8.03(c).
- b) Where the Union wishes to advance a policy grievance or discharge grievance, a Union representative must, within fourteen (14) days of the date on which the Union became aware or reasonably ought to have become aware of the circumstances giving rise to the policy grievance or discharge grievance, record the complaint in a grievance form, which will provide details of the complaint and remedy sought, have it dated and signed, and then submitted to the Company by facsimile transmission.
- c) Both parties must, within fourteen (14) days of either the request for disclosure referred to in 8.04(a) or the submission of a policy grievance or discharge grievance referred to in 8.04(b), provide the other party with all relevant information in that party's control. Each party agrees to make best efforts to provide adequate disclosure within fourteen (14) days of the other party's request for disclosure.

8.05

Step 3

A Union/Management Committee will be composed of the Union Negotiating/Grievance Committee and at least two (2) Company representatives and will convene on the second (2nd) Thursday of every month. All outstanding grievances that have completed a progression through the preceding steps as outlined in this Article at least seven (7) days prior to the monthly Union/Management Committee meeting will be discussed by the Union/Management Committee on the second (2nd) Thursday of every month.

If the Union Negotiating/Grievance Committee fail or refuse to discuss any grievance that is before the Union/Management Committee, such grievances will be deemed to be withdrawn. If the Company representatives fail or refuse to discuss any grievance that is before the Union/Management Committee, such grievances will be deemed to be accepted by the Company.

The Company representatives will give the Company's reply to the grievances discussed at the Union/Management Committee meeting within fourteen (14) days of that meeting.

8.06

If the Company's reply referred to in 8.05 was not satisfactory to the Union, and the Union wishes to advance the matter, the Union may, within twenty-eight (28) days after said reply refer the grievance to arbitration.

8.07

Any of the time allowances, at any step, set out above in this Article, may be extended by mutual agreement.

8.08

Notwithstanding the arbitration provision contained herein, either party to the Collective Agreement may request the Minister to appoint a single arbitrator to hear and determine the matter. Such request can be made either after exhaustion of the Grievance Procedure in this Article or after twenty-eight (28) days (fourteen (14) days in the case of a grievance concerning the termination of employment) from the time at which the grievance was first brought to the attention of the other party, whichever first occurs. However, no such request can be made beyond any time stipulated in or permitted under this agreement for referring the grievance to arbitration.

8.09

At any stage of the Grievance Procedure including Arbitration, the conferring parties may have the assistance of the employee(s) concerned and any necessary witnesses and relevant records. All reasonable arrangements will be made to permit the conferring Parties, or the Arbitrator, to have access to the plant to view disputed operations and to confer with the necessary witnesses.

8.10

Either party can request that a grievance that has been dealt with as outlined in Article 8 Grievance Procedure, of the Collective Agreement, be submitted to the Alternative Dispute Resolution process as outlined in Letter # 29.

Article 9 – ARBITRATION

9.01

When either party requests that a grievance be submitted to arbitration, it shall make such request, in writing, addressed to the other party of this Agreement. Upon receipt of such request, the following shall apply.

- a) A single Arbitrator selected from the names listed below shall be used. The parties agree that each Arbitrator will be used in rotation, if available, approached in descending order as listed for each arbitration case.

The parties can agree to select from the list of Arbitrators by mutual agreement if they so choose. The first Arbitrator to fulfill the requirements of 9.01 (b) will be considered the selected Arbitrator.

V. Solomatenko
J. Devlin
M. Teplisky
H. Brown

- b) Upon selection of an Arbitrator listed above, joint notification shall be issued and, upon receipt of same, the Arbitrator shall hear the case within ninety (90) days and shall rule on said case within another thirty (30) days.
- c) If a vacancy should result on the list of Arbitrators above, a replacement mutually agreed upon by the Company and the Union shall be named.
- d) If none of the Arbitrators listed above are available or cannot comply with the time limits, either Party may then request the Minister of Labour for the Province of Ontario to assist them in selecting an Arbitrator.

9.02

A person acting as a mediator in an attempt to settle the grievance may, if agreed to between the parties, be selected as an Arbitrator for said grievance.

9.03

Each of the Parties hereto will jointly bear the expense of the selected Arbitrator.

9.04

No matter may be submitted to Arbitration which has not been properly carried through all previous steps of the Grievance Procedure.

9.05

In case of a grievance involving discipline or discharge, the Parties may, or if the matter is referred to an Arbitrator, the Arbitrator may dispose of the grievance in any manner which, in the opinion of the Parties or the Arbitrator, as the case may be is just and equitable.

9.06

The Arbitrator shall not have any power to alter or change any provisions of this Agreement or to substitute any new provisions for any existing provisions, nor to give any decision inconsistent with the terms and provisions of this Agreement. The decision of the Arbitrator will be final and binding upon the Company and the Union.

Article 10 – COMPANY GRIEVANCES

10.01

If the Company has a grievance with respect to the conduct of the Union, its Officers, Committeemen or Stewards, or a complaint that the Union or any of its members have violated the provisions of this Agreement the Company will submit such grievances to the Union and it shall be taken up between the parties in the same manner as a written grievance, commencing at Step. No. 3. If the grievance is not settled to the satisfaction of either party, it may be referred to Arbitration.

Article 11 – DISCIPLINE

11.01

If an employee, who has completed the probationary period, is discharged and he believes such discharge is unjust, he shall have the right to submit a grievance within fourteen (14) calendar days after the discharge occurs. The discussion of such grievances shall commence at Step. No. 3 of the Grievance Procedure.

11.02

Grievances relating to discharge or suspension may be settled by confirming the Company's action, or by reinstating the employee with full compensation for time lost, or by any other arrangement which is just and equitable.

11.05

The Company shall have the right to terminate the employment of a probationary employee, provided that the termination is not arbitrary, discriminatory, or in bad faith.

The Union shall have the right to file a grievance on behalf of a discharged probationary employee.

Article 12 – SENIORITY

12.01

- a) An employee will be on probation and will not have any seniority with the Company until after he has completed three (3) calendar months from his date of hiring. Seniority will then date back to the date he was hired. If however, a probationary employee is laid off and is re-hired after layoff within a period of three (3) consecutive calendar months, he will be given credit for time worked toward completion of the probation period. Probation when completed under this provision, will then be dated back three (3) consecutive months from the probation completion date.
- b) Upon completion of two (2) continuous months of employment from the date of hiring, probationary employees will be added to all benefit programmes. Probationary employees referred to above will be added in the calendar month following completion of the two months as set out above and the Company will, from that month, pay the required premiums.

12.02

The two types of seniority, (a) and (b) below, will apply to layoffs, recalls, promotions and demotions, subject to the provisions of this agreement. The seniority as defined in (c) below will apply to stated purposes only.

- a) Plant seniority is defined in 12.01 a), subject to the provisions of this Agreement covering the probationary period of service. In the event of disputes involving seniority, the employee's permanent number will be the final determining factor. The Union will be afforded the opportunity to make representation regarding the sequence of numbers in the event of disputes.
- b) Job seniority is defined as seniority credited to an employee upon a permanent posting to a specific job within a department or line of progression.
- c) The President and the members of the Negotiating/Grievance Committee of the Union shall hold top plant seniority for the term of their offices, which shall only be applied in the event of layoff. Such seniority will not be exercised as job or department seniority and shall only be used to retain employment within the plant.

- d) *Note: The provisions of 12.02 d) do not apply to any employee hired after February 28, 2004.*

Long service Trade and Craft employees not assigned to a designated day job may exercise their job seniority to choose placement on the schedules and or departments or duties of their choice within their Trade and Craft Group provided they have the demonstrated physical fitness required to perform the duties of the job.

Long service Trade and Craft shall be defined as employees having at least 12 years job seniority.

- e) Where the Company deems it appropriate to appoint a Lead Hand in a Trade and Craft group, such appointment shall be based on job seniority.
- f) *Note: The provisions of 12.02 f) do not apply to any employee hired after February 28, 2004.*

Job seniority will be the basis for assignment of day shift work within the Maintenance Department. All assignments prior to February 28, 2004 will continue in force. It is agreed by the parties, that, on exercise of job seniority in day job assignment, a familiarization period of three (3) weeks is reasonable for performance evaluation, at which time the employee can accept or decline such assignment and return to his original job.

It is also agreed that some specific assignments can involve a degree of extra training which will be provided by the Company to facilitate such assignment. In this event, a further period of five (5) weeks will be allowed where a further evaluation will be made and the employee will be either confirmed in the position or returned to his original job.

- g) Whenever a Maintenance position becomes available it must be filled in the following manner:

The Company shall fill any above noted position by either posting the position on the Plant bulletin boards when applicable, or by offering the position to all eligible Maintenance employees in order of Job Seniority. When filling the position by posting, the Company shall send a copy of each posting and the ensuing successful and unsuccessful applicant list to the Union President. When filling the position by offering in order of Job Seniority, the Company shall ensure that the process is recorded on paper by the Supervisor. The record shall indicate the choice made by the employee and will be signed by the employee(s) and the Supervisor(s) concerned. The Company shall send a copy of all such recordings to the Union President.

12.03

- a) Within four (4) months after the effective date of this Agreement, the Company will prepare and post Plant and Job Seniority Lists on its bulletin boards.
- b) The Company will also provide to the local the updated version of the list on a monthly basis with addresses and phone numbers included.

12.04

- c) is laid off due to a lack of work for a period in excess of thirty-six (36) consecutive months.

12.05

12.06 Reductions In The Workforce

- a) Except as hereinafter provided, seniority for the purpose of layoff, recall, promotion and demotion will be applied in the lines of progression annexed hereto. The lines of progression and promotional ladder will not apply to the Trade and Craft group of employees.
- b) The Union Committee will be notified in advance of any layoff of Bargaining Unit employees. The Company will supply the Union a list of names of employees who are to be laid off.
- c) Where a reduction in the work force necessitates a layoff from the plant, (other than in 12.07), junior employees will be laid off first by plant seniority and the reduction will function in the following manner.
 - 1) Employees will move down through the reduced lines of progression based on their job seniority.
 - 2) Vacancies created as a result of the layoff will be filled on the basis of job seniority first, and plant seniority second, by an employee with the skill and ability to perform the normal requirements of the job. All Spareman positions will be filled by the application of plant seniority.

- 3) In order to allow employees to apply their plant seniority, the Company will survey employees who do not have a posting or who do not have enough seniority to remain in their posted job and the employees will submit their preferences for the available positions.
- 4) During a layoff, employees who have been displaced from their posted job will exercise their job seniority wherever possible to fill vacancies that are expected to extend beyond 45 days.
- 5) If there is no one available with the necessary experience or demonstrated skill and ability to replace an employee who is to be laid off, junior employees may be retained in their jobs, for a period up to six (6) weeks, while a more senior temporary replacement employee is being trained on his job. When sufficient training is achieved, the junior person will be laid off.

An employee assigned to a temporary job as above will remain in the temporary job until his previous job becomes available. He will become the junior person in the specific job with temporary job seniority and be able to advance in the line if the opportunity arises. If the temporary incumbent's previous job becomes available before a trained replacement returns from layoff, the temporary incumbent may be required to remain in the temporary job for a period of up to six weeks to train a replacement. In such a case he will be paid the higher of the two rates.

- 6) After two years, if the previous incumbent in the job has not returned from layoff, the previous incumbent shall forfeit any job seniority he previously held. The job, which has been occupied by the temporary replacement, will be posted in accordance with Article 15 of this Collective Agreement subject to the following amendments:
 - (i) If no successful applications are received from seniority employees, the Company will fill the vacancy with the most junior production employee in the plant
 - (ii) If the most junior production employee in the plant, who has been assigned to fill a vacancy as stated above, holds seniority in another job, he will retain the right to return to his former job, with all former seniority intact, should a vacancy in his former job open up.
- 7) Any vacancy that cannot be filled because of insufficient manpower shall be filled in accordance with article 12.08.
- 8) This will only apply as long as the layoff exists. When the layoff is over, employees will return to their previous line of progression as operational requirements necessitate according to their job seniority.

- d) In the event of a layoff, Trade and Craft employees shall not be subject to the provisions of Article 12.06(c) above, they will be laid off by plant seniority within their own trade group.
- e) In the event of a workforce reduction apprentices will be considered as one group and reduced within this group by plant seniority, and have access to 12.06 (c) provisions for the purpose of layoff.

12.07

- a) When temporary conditions, such as emergency situations as covered in this Agreement, or a shortage of work, necessitates a departmental shutdown for not more than seven (7) calendar days, seniority provisions will not apply. Before any employee is laid off under this section, he will be given the opportunity according to his plant seniority to perform any available work from and including Job Class seven (7) down to and including Job Class two (2).
- b) The Company will not, however, use a succession of short-term layoffs for the purpose of avoiding the application of seniority. This section will not be applied on any single occasion for more than seven (7) days. In total, this section will not be applied for more than twenty-eight (28) days in any department (the departments for purposes of this provision being (a) steelmaking, (b) bar mill, and (c) structural mill) in any twelve (12) month period. It is agreed that this section will not be applied for periods of less than one full shift.
- c) For purposes of this provision, a day is defined as three (3) eight (8) hour shifts or two (2) twelve (12) hour shifts.
- d) When a layoff due to conditions stated above occurs, probationary employees will be laid off first.
- e) The term "available work" as used herein shall mean any work which the Company requires to have performed.

12.08 – Recall

Employees being recalled to the plant after layoff will be recalled according to plant seniority, and be returned as operational requirements necessitate, to their previous line of progression according to job seniority.

- a) The Company will supply the Union with a list of names of employees who are to be recalled.
- b) Recall to work following layoff from the plant will be made by registered letter or telegram addressed to the last address of the employee recorded with the Company.

Employees expecting to be away from home during the layoff shall arrange a method of contact. An employee being recalled must signify his intention to return to work within four (4) days after the notice has been sent out and shall return within a further three (3) days unless some other arrangement is made satisfactory to the Company.

Employees who have failed to respond to recall for a legitimate reason which can be substantiated if required will be deemed to have complied with recall.

When layoff/recall above has been implemented, crews will be scheduled from those employees responding to recall prior to start up. Late returning employees will be slotted into crews as their seniority dictates when updated schedules can be made up.

- c) If a reduction in operation of known duration should occur in one or more departments and a layoff should result, the normal recall provisions may be waived provided all employees affected are notified by posting at least one week in advance of the shutdown, of the date of shutdown and start-up dates with their shift of recall.

Areas not affected by the reduction in operations requiring scheduled manning or work required by the Company will be subject to the layoff provisions of this Agreement.

Employees affected in the above layoff will be recalled on their regular shift schedules as if a layoff had not occurred.

Article 13 – LINES OF PROGRESSION

13.01

The Company has the right to modify and/or eliminate any of the Lines of Progression at any time. Employees who are displaced as a result of such modification or elimination will be dealt with in accordance with the provisions of Articles 12.06 to 12.08 and 13.02.

13.02

- a) Permanent vacancies in lines of progression will be filled by movement in the line as set out herein. With respect to lines of progression other than crane lines of progression, the vacancy thus created at the bottom of the line shall be filled by posting the entry level positions in each line of progression. Should there be no applicants for the entry level position(s), the Company shall assign the junior (plant seniority) non-posted employee(s) from the Spareman classification within the department to the position(s). Job seniority in a line of progression will accrue commencing the date of successful posting or assignment to a job within the line of progression.

The position of Spareman is not part of any line of progression. Employees in this position may be used to fill temporary vacancies in accordance with Article 14, and permanent vacancies in accordance with this Article 13.02(a) and Article 15.01(a).

The Company agrees that, in order to fill vacancies of a temporary nature, training will be provided to employees, in order of Job Seniority but first to employees who wish to progress to the next highest job in the line of progression.

Training will be provided as time and resources are available, and it is understood and agreed that the Company is not required to provide training on overtime.

- b) Employees in a vertical line of progression will progress and regress through such line of progression in accordance with their job seniority.

13.03

The lines of progression and promotional ladders will not apply to the Trades group of employees or to production employees not assigned to a line of progression, except as hereinafter provided.

13.04

Vacancies for permanent positions, other than entry level positions, that are required to be filled in a vertical line of progression shall only be filled by employees in the specific line of progression. The senior person (job seniority) in the job immediately below the vacancy shall be entitled to move up to fill the vacancy, with those below progressing in the line in the same manner as required to fill resultant vacancies. If the senior employee(s) at each level in the line of progression decline(s) the move, the employee at that level with the least amount of job seniority will be required to move up to fill the vacancy.

Following a move to a higher level in his line of progression, the employee will be subjected to a 120 hour evaluation period, during which the employee can choose to return to his former level, and during which the Company can return the employee to his former level if it determines the employee is not suited for, or is not able to perform, the normal requirements of the job.

If the employee returns, or is returned to his former job, all resultant transfers shall be reversed and the process outlined in this Article 13.04 will be repeated, beginning with the next senior person (job seniority) in the job immediately below the vacancy.

For the purposes of this Article 13.04, and for the purposes of Article 14.01, Article 15.01, Article 15.03 and Article 16.01, the normal requirements of a job will be as described in the Job Description prepared pursuant to the Co-Operative Wage Study (C.W.S.) as referenced in Article 26.01 of this Collective Agreement, as such Job Description may be amended from time to time.

During vacancy filling procedures, other than vacancies for Crane Operators, the Company may assign an employee(s) to the vacancy(ies) from any of the employees designated as Spareman from within his department provided he has the ability to perform the normal requirements of the job and only until the appropriate employees can advance in accordance with this Article 13.04. If there are no employees designated as Spareman who have the ability to perform the normal requirements of the job, the Company may assign another employee(s) to the vacancy(s) for a period of up to thirty (30) days, or longer as the Company and the Union may agree, provided he has the ability to perform the normal requirements of the job for the temporary period.

13.05

Employees who are unable to progress or remain in their present jobs due to a functional disability, will be considered for an accommodation by applying to the Modified Work Committee, in accordance with the Modified Work Program (Letter 27 of this Collective Agreement).

13.06 Cranes

The Steelmaking Crane line of progression is a vertical one and people progress and regress through this line based on their job seniority. The current line of progression is illustrated in this Collective Agreement.

In the Rolling Mill and the Shipping Crane lines of progression people progress and regress through these lines based on the application of their job seniority to operate a specific crane. The current lines of progression are illustrated in this Collective Agreement.

It is understood and agreed that the three crane lines of progression shall operate in the manner described below.

- a) The classification of Crane Replacement Operator is the entry level position in each crane line of progression. Employees in this position may be used to fill temporary vacancies within their department in accordance with Article 14, and permanent vacancies in accordance with this Article 13.06. Crane Replacement Operators may be assigned to work on the ground in their department provided:
 - i) They shall at no time move beyond the entry level position, and
 - ii) They have completed training in at least two (2) of the cranes in their department, or
 - iii) Extraordinary circumstances beyond the Company's control require the Crane Replacement Operator to temporarily work on the ground (eg. Production will shut down)

Crane Replacement Operators shall be paid the rate of pay for the job performed.

- b) All Crane Operators and Crane Relief Operators are considered to be part of a line of progression with all moves made laterally or vertically as described in this Article 13.06. Permanent vacancies in any of the Rolling Mill or Shipping crane positions shall be filled in the following manner:
- i) When a permanent vacancy exists for a Crane Operator or Crane Relief Operator in the Rolling Mill or Shipping Crane line of progression, Crane Operators in their respective lines shall be given the first opportunity to fill the vacancy based on job seniority. The resulting vacancy shall be filled in the same manner until all of the Crane Operators have been given the opportunity to bid for vacancies in other positions within their crane line of progression.
 - ii) Once the remaining vacancy is determined, the Crane Replacement Operator with the most job seniority in the Crane Replacement Operator position in the department shall be assigned the vacancy.
 - iii) It is further understood that, in the event of a reduction in the number of Crane Operators (including Relief Operators) in either the Rolling Mill Crane or Shipping Crane line of progression, Article 13.02 (b) shall not apply. Instead, once the Company has determined the number of Crane Operators (including Relief Operators) that are to be displaced, the remaining Crane Operators (including Relief Operators) shall apply their job seniority to bid on the remaining positions. Crane Operators that do not have enough seniority to remain in a Crane Operator or Relief Operator position shall move to the Crane Replacement Operator position. Crane Replacement Operators displaced by this process shall revert to the Spareman position.
- c) Permanent vacancies within the Steelmaking Crane line of progression shall be filled in the following manner:
- i) The senior person (job seniority) in the job immediately below the vacancy shall be entitled to move up and fill the vacancy, with those below progressing in the line in the same manner as required to fill resultant vacancies. If the senior employee(s) at each level in the line of progression decline(s) the move, the employee at that level with the least amount of job seniority will be required to move up to fill the vacancy.
 - ii) The Crane Replacement Operator with the most job seniority in the Crane Replacement Operator position in the Steelmaking crane line of progression shall be assigned the remaining vacancy in the entry level crane in the department.
- d) During permanent vacancy filling procedures in any crane line of progression, the Company may assign an employee to a vacancy from any of the employees designated as Crane Replacement Operator from his department, provided he has the ability to perform the normal requirements of the job.
- e) If there are no employees designated as Crane Replacement Operators who have the ability to perform the normal requirements of the job, the Company may assign another employee from a crane line of progression to the vacancy for a period of up

to thirty (30) days, or longer as the Company and Union may agree, provided he has the ability to perform the normal requirements of the job for the temporary period.

- f) Permanent vacancies for Crane Replacement Operator shall be posted as per Article 15. Should there be no applicants the Company shall have the right to hire Crane Replacement Operators from outside.
- g) It is agreed that where two cranes from two different lines of progression operate on the same track and a vacancy exists, the crane that is manned will also temporarily perform the duties of the other crane to the extent possible until the vacancy is filled. It is further agreed that, should the operational requirements dictate, the supervisor will have the right to direct the cranes to meet the requirements of the Company.

If the senior employee(s) at each level in the line of progression declines the move, the employee at that level with the least amount of job seniority will be required to move up to fill the vacancy.

When the need to fill the temporary vacancy ends, all of the moves shall be reversed, and the employees will regress down the line of progression in the same manner in which they progressed upwards.

Employees absent due to illness or accident who are expected to return to work will be informed in writing of any vacancy posted during the absence. Employees applying for vacation or leave of absence must indicate on the request form the desire to apply for any specific jobs that may be posted during their vacation or leave of absence.

An employee who receives a transfer through the job posting procedure will not apply again until seven (7) consecutive months have elapsed, except to apply for a Trade and Craft Apprenticeship. Permanent postings not lasting seven (7) months will be treated as temporary, and all movements made associated with the posting will be reversed.

The most senior employee from the list of applicants will be installed in their new job within thirty (30) days, unless specifically agreed to between the Company and the Union Negotiating/Grievance Committee.

If no successful applications are received from seniority employees, the Company will fill the vacancy with the junior Spareman from within the department. As such, where there are less than seven (7) Storesmen, at least one (1) employee shall be allowed to take vacation at any one time. Vacations shall be based upon plant seniority, where any conflict of

vacation dates shall be decided on plant seniority depending upon the sequential number list.

The exception to the above is for the period beginning one week prior to the summer shutdown to and including one week after the summer shutdown, to a maximum of four weeks, when at least one person per Trade and Craft from each Department will be granted vacation.

21.05 Vacations During Prime Time - Production Units

Two consecutive weeks of prime time vacation will be arranged for eligible employees who so request, based on plant seniority among employees in each line of progression from each crew. Where there is a conflict of vacation dates, plant seniority based on the sequential number listing will be the governing factor.

The term "crew" as used herein shall mean the employees in an off line job or a line of progression from a Production Unit that are working an eight (8) hour shift schedule on days, afternoons or nights, or, a twelve (12) hour schedule on days or nights

For each crew, the number of employees allowed vacations at any one time within lines of progression, shall be as follows: for crews not exceeding six (6) employees, the allocation shall not be less than one (1) per crew. For crews with seven (7) to twelve (12) employees inclusive, the allocation shall be not less than two (2) per crew. The same principle of application shall be applied for each additional multiple of seven (7) or a portion thereof.

- c) Rolling Mill Services shall include two (2) groups, the first of which includes those employees working an eight (8) hour schedule and the second group includes those employees working a twelve (12) hour schedule. In the first group, up to three (3) employees shall be allowed to take vacation at one time. In the second group, at least one (1) employee per crew shall be allowed vacation at any one time;
- d) The Shipping/Warehouse Sparemen shall be considered part of the Shipping Line of Progression when determining the allocation per crew.

As noted in Article 13.06, Crane Replacement Operators are part of their respective Department Crane Line of Progression.

The Company will also have the ability to schedule a third week of vacation shutdown for any department and this week must include Christmas Day. The Company shall inform the Union Negotiating/Grievance Committee by March 30th of each year if they will be scheduling this third week of vacation shutdown.
- b) If, due to factors beyond the control of the Company, the scheduled dates for a planned Production Unit summer vacation shutdown require change, the Union Negotiating/Grievance Committee must be advised of the revised dates no later than the second Friday in May.

In this event all rescheduling of vacations must be completed by the last Friday in May in accordance with Article 21.05.

- c)
 - i) If the announced vacation shutdown is changed as set out in 21.07(b) above, original requests must be honoured if so desired by the employee as if the original vacation shutdown had taken effect.

 - iv) Employees with less than three weeks vacation entitlement shall be afforded the opportunity during the Christmas shutdown period, subject to their plant seniority, to perform any available work within their department or take a leave of absence.

- d) Due to the fact that the Shipping Department does not undergo a summer shutdown as in other production departments, and in order to facilitate vacations during Prime Time, the Shipping Department will operate on a reduced manpower schedule for a period not to exceed two weeks, in the following manner:
- i) When the Company announces the dates for the summer shutdown in accordance with Article 21.07, that includes either mill, the Company may select a period that coincides with a Rolling Mill shutdown to operate the Shipping Department on a reduced manpower day-shift schedule.
 - ii) All Shipping personnel will be scheduled on vacation for the duration of the Rolling Mill shutdown period that has been selected by the Company, except for the number of employees required to operate the Shipping Department on the reduced manpower day-shift schedule. Employees wishing to work shall make application based on plant seniority to fill the required positions. In the event the Company does not receive sufficient applications to fill the required number of positions during this period, the Company will assign junior employees to fill the required positions.

21.08 Surrendered Vacations

It is agreed employees with more than three (3) weeks, or in the case of a twelve hour shift worker, one hundred and twenty (120 hours), of vacation will have the ability to surrender excess vacation entitlement on an annual basis. All requests for surrender of vacation must be submitted to the employee's Supervisor before April 15th of the year the vacation is due.

An employee wishing to surrender vacation weeks, or in the case of a 12 hour shift worker, hours, for cash will complete a Vacation Alternative Request form, indicating the number of weeks (or hours) he wishes to surrender and submit this request to his Supervisor for processing. The Supervisor will review and forward to the Department Manager for approval. Such request will be answered within fourteen (14) calendar days.

If approved, payment for those weeks or hours so surrendered shall be made in the first pay week in July of the year in which the vacation is due. A bonus rate of 50% of the applicable vacation pay shall be applied and paid at that time.

Effective on the dates specified in Section 26.03, all employees shall have their rates of pay adjusted as follows:

- a) If the employee is not receiving an out-of-line differential prior to the dates specified in Section 26.03, the rate of pay of such employee shall be adjusted to conform to the Standard Hourly Rate for that employee's job, as provided in Section 26.03.
- b) If the employee is receiving an out-of-line differential prior to the dates specified in Section 26.03, the rate of pay of such employee shall be increased by the amount by which the rate for Job Class 1 has been increased, as provided in Section 26.03 and the following shall govern.
 - i) If the employee's new rate resulting from such increase is greater than the standard hourly rate for the job, as provided in Section 26.03, the amount by which such employee's new rate is greater than the rate provided in Section 26.03 shall become such employee's new out-of-line differential (which shall replace the former out-of-line differential) and shall apply in accordance with the provisions of this Agreement.
 - ii) If the employee's new rate resulting from such increase is equal to or less than the standard hourly rate for the job, as provided in Section 26.03, the rate of pay of such employee shall be adjusted to conform to the Standard Hourly Rate for the job, as provided in Section 26.03, and the former out-of-line differential shall be terminated.

26.05

As of the date the Standard Hourly Wage Scale becomes effective, the standard hourly rate for each job class shall be the standard hourly rate for all jobs classified within such job class and shall continue for the duration of the Standard Hourly Wage Scale and shall be applied to any employee in accordance with the provisions of this Agreement.

26.06

Each standard hourly rate established under Section 26.03 shall be:

- a) The established rate of pay for all hours paid for a non-incentive job; and
- b) The established hourly base rate and minimum guaranteed rate of pay under any incentive applied to the job in accordance with the provisions of this Article.

26.07

Except as otherwise provided by the Agreement, the established rate of pay for each production or maintenance job, other than a Trade or Craft or Apprentice job, shall apply to any employee during such time as the employee is required to perform such job.

26.08

Except as otherwise provided by this Agreement, the established rate of pay for a Trade or Craft or Apprentice job shall apply to any employee during the time such employee is assigned to the respective rate classifications in accordance with the provisions of this Agreement.

26.09

Out-of-line Differentials:

The Company shall furnish to the Union, as of the date of this Agreement, a list of employees who are paid "out-of-line differentials". Such list shall contain the following information:

- a) Name of incumbent to whom such "out-of-line differential" is to be paid.
- b) Job title of job on which out-of-line differential is to be paid.
- c) Job classification of such job.
- d) Standard hourly rate of such job.
- e) Amount of out-of-line differential.
- f) Date such out-of-line differential became effective.

26.10

Except as such out-of-line differential may be changed by the means hereinafter provided, any employee included in the list referred to in Section 26.09 shall continue to be paid such out-of-line differential during such time as the employee continues to occupy the job for which the differential was established.

26.11

If an employee with an out-of-line differential is transferred or assigned to a job having a higher standard hourly rate, then the differential shall be reduced by the amount of the increase in the standard hourly rate.

26.12

If, as a result of layoff and the exercise of seniority rights an employee with an out-of-line differential is moved to a job having a lower standard hourly rate, then the out-of-line differential shall be cancelled.

26.13

If such employee referred to in Section 26.11 and 26.12 shall be returned to the job for which the out-of-line differential was established, the out-of-line differential shall be reinstated except as it may have been reduced or eliminated by other means.

26.14

When an employee would, in accordance with the terms of this Agreement, be entitled to receive his regular rate he shall also receive any out-of-line differential to which he is entitled.

26.15

In addition to the means herein provided, increases in the increment between job classes shall be used to reduce or eliminate out-of-line differentials.

26.16

Except for the application of the out-of-line differentials as called for herein, the terms of this Agreement governing transfers shall apply.

26.17 Temporary Transfers

An employee temporarily transferred from a lower to a higher rated job for a period in excess of one (1) hour, shall be paid the rate of the higher job plus any out-of-line differential to which he is entitled. An employee temporarily transferred from a higher to a lower rate job for the convenience of the Company and not as a result of lack of work, shall be paid his existing rate for the duration of such temporary transfer.

26.18 Learner Rates

Learner jobs requiring "learner" rates due to lack of adequate training opportunity provided by the promotional sequence of related jobs shall be negotiated and made a part of this agreement.

26.19

A schedule of learner rates for the respective learning periods of 520 hours of actual learning experience with the Company on jobs for which training opportunity is not provided by the promotional sequence of related jobs, shall be established at the level of the Standard Hourly Wage Scale rates for the respective job classes. This determination shall be on the basis of the required employment training and experience time specified in Factor 2 of the job classification record of the respective job as follows:

4. Employees who have had no related work experience in relation to the respective job shall serve an additional 520 hours of work in the learner period two job classes below the job class of the job.

26.20

The learner periods, as provided in Section 26.19 shall apply to those jobs listed in Appendix "B" of this Agreement, except as otherwise mutually agreed between the Company and the Union and so indicated in Appendix "B". Learner periods shall apply only to jobs in Job Class 8 and up, except where the provisions of Section 26.21 and 26.22 apply.

26.21

The Company, at its discretion, may apply a learner rate to a learner on any job where another employee other than the learner is on the job, provided the learner rate applied is:

26.24

Employees' time spent on a job requiring a learner schedule shall be cumulative. Periods of less than one (1) hour shall not be counted toward completion of a learner schedule, but shall be paid for in accordance with the terms of this Agreement.

26.25

Any employee who has qualified for a job through a learner schedule shall not be required to repeat that learner schedule.

26.26

The established learner rate of pay for each learner period classification shall apply in accordance with the learner training period as defined in Section 26.19. However, an employee whose current rate of pay is higher than the minimum rate of a learner job to which he has acceded, shall maintain his current rate but not higher than the standard hourly rate of the job being learned until such time as the rate for the applicable learner period classifications equal to or exceeds his present rate.

26.27

Any employee, when assigned to a job on which a learner rate applies, shall be credited in the learner schedule with all time previously worked on such job, or, in the case of a "grouped" job, on a job in such group. It is agreed that such past time shall be computed from reasonably recent records of the Company.

26.28

Piecework Incentives: Should the Company desire to install piecework incentives to cover any jobs, the following shall govern:

- a) The Standard Hourly Rates for the respective jobs shall be the base rates and minimum hourly guaranteed rates for such incentives.
- b) Before a piecework incentive plan is installed, the matter shall be the subject of negotiations between the Company and the Union.

26.29

Any mathematical or clerical errors made in the preparation, establishment or application of job descriptions, classifications or standard hourly rates shall be corrected to conform to the provisions of this Agreement.

26.30

Except as otherwise provided, no basis shall exist for an employee covered by this Agreement to allege that a wage rate inequity exists.

Article 27 – TECHNOLOGICAL CHANGE PLAN

27.01

Both parties recognize the importance of lessening as much as reasonably possible the effects of technological change upon the job security and the earnings of an employee who may be displaced from his job as a result of such change.

The Company will notify the Union as soon as possible in advance of any technological change which may cause a displacement of employees from their jobs. The Company will meet and inform the Union of the planned change and will hold further meetings with the Union, to discuss the placement of the employees affected. The Company will also meet with the Union as far in advance as practicable prior to the time that the technological change is to take place to discuss the application of this programme with respect to such employees.

In order to reduce the impact of displacement from a job due to technological change, an eligible employee will be entitled to assistance in accordance with the following:

a) Definition

Technological change shall mean the automation of equipment, or the mechanization or automation of duties, or the replacement of an existing facility with a new facility which produces the same product.

12 HOUR SHIFTS - Terms and Conditions**

Unless specifically abridged in this Appendix C, all the terms and conditions in the Collective Agreement apply. These amendments are only for the people who will be affected by 12 hour shifts, they do not affect anybody who will not be working 12 hour shifts. Either party has the ability to abandon the twelve hour shift system if there are infractions of these terms and conditions that are not remedied.

The twelve hour shift pattern is an alternative only to the four shift or "continental" shift pattern. Only employees on this shift pattern, (or employees affected through vacation coverage), will be given the opportunity to vote on twelve hour shifts. Any part of a department currently on day shift or 10 turns or 15 turns, will not be affected by 12 hour shifts, and will remain on their current schedules.

Before a twelve hour shift system can be put into effect, a vote is taken of the people affected in the area concerned. This vote requires a 69% acceptance rate of the people affected, before a twelve hour shift system can be worked. If the 69% is not met, the twelve hour shift pattern will not be worked.

The areas currently working a twelve hour shift pattern are:

Art 17 Union committee meetings that require the members of the various committees to meet with Company representatives in meetings that result in the loss of two shifts shall receive payment for both shifts from the Company.

Art 17 Bereavement leave shall be two twelve hour shifts.

Art 17 Jury Duty and disinterested third-party witnesses:

Night Shift: employees so scheduled shall receive payment for the full shift, but are not required to work the night shift that starts at 8pm on the day preceding their day of appearance if they are scheduled to work. Employees so scheduled shall receive payment for the full shift but are not required to work the night shift that starts at 8pm on the day of appearance if they are scheduled to work, unless they are released by the court before noon, in which case they shall be required to report to work at 8pm that evening for the night shift.

Day Shift: employees so scheduled shall be paid for the full shift, but are not required to work the day shift that they report to the court, unless they are released by the court before noon, in which case they shall be required to report to work for the remainder of the day shift.

Art 20 Paid Holidays will be recognized from 8am the day of the holiday, until 8am the day after the holiday. Anybody scheduled to start the night shift at 8pm on the day before the holiday will be required to report for work. Holidays shall be paid in the following manner:

If any holidays fall on any scheduled days off, eight (8) hours holiday pay, (and 1.5 times the rate for the first shift(s) back, to a maximum of sixteen (16) hours per shift).

If any holiday falls on a scheduled workday twelve (12) hours holiday pay

If any holiday is worked, twelve (12) hours holiday pay plus 1.5 times rate for all hours worked. (except for the holidays that pay 2 times the rate if worked).

If any holiday falls during a vacation period, which is recognized as the period beginning from the end of the last scheduled shift worked prior to the vacation, until the start of the next scheduled shift worked, and all the days off in between these days, then the first regularly scheduled shift(s) back after the vacation period shall be recognized as a lieu day(s) for the holiday(s) and shall be paid 12 hours holiday pay for each lieu day, and the employee shall not be required to report for work unless he has specifically requested and been granted permission to do so. In this case, he shall be paid an additional double time the regular rate for all hours worked. If a paid holiday falls on a scheduled work day within a vacation period, the paid holiday must also be taken as a vacation day in order for it to be included in the vacation period.

Art 21 Vacation will be taken in hours, in groups of two or three consecutive shifts at a time, depending on the number of consecutive shifts a person is scheduled to work. The entire cycle of two or three shifts must be taken, not two out of three. The only time part of a cycle can be taken is when a person is using the end component of the vacation entitlement. For instance, four weeks vacation entitlement is now converted to 160 hours or 13 shifts plus 4 hours. Five weeks vacation is now 200 hours or 16 shifts plus 8 hours, and so on. This could result in as many as 20 vacation hours still to be taken, after a series of two and three consecutive shifts have used up the rest of the vacation entitlement. This end component must be taken at one time, but it may be taken at the discretion of the employee with a minimum two weeks notice given when applying.

Art 21 The same entitlement will be in place regarding how many people off at one time, but instead of weeks being used, it will be cycles, (groups of two or three shifts). For the purpose of overtime availability, all days that were scheduled as off days that fall during the period beginning from the last shift worked, up to the first shift worked after the vacation, shall be booked as not available if the overtime list dictates that it should be that employees' turn to be offered the opportunity.

Where the vacation taken by a Maintenance "Shift" man results in the need for a replacement to cover the 12 hour shift, it will be filled in the following manner:

First, a volunteer will be sought from men in the department in the same trade and craft group as the vacationing employee, to go on the 12 hour shift schedule and cover the vacation period(s) on a one or two week basis as required.

Secondly, if no volunteer is found, then attempts shall be made to cover the necessary shifts with overtime.

Lastly, if the required coverage cannot be obtained with either of the first two methods, then the junior man in the respective group will be transferred to the 12 hour shift schedule to cover vacations as required.

In cases that result in the replacement shift man transferring to the 12 hour schedule, it will only be necessary to work night shifts that are actually being taken as vacation by the regular shift man. Occasions could arise where the transfer was made to provide coverage for vacations taken on day shift, but include night shifts in the same time frame, that are not being taken as vacation. In these instances, the replacement shall not be required to work the night shift with the shift man, but shall work day shift on the corresponding days.

Art 21 For the purposes of twelve hour shifts, Production Vacation Shutdowns as outlined in 21.07 of the Collective Agreement, shall commence at 8:00am on a Monday and finish 336 hours later at 8:00am on a Monday.

Art 23 The pay week for the twelve (12) hour shift schedule will start at 8:00am on Sunday and finish 168 hours later and repeated weekly. This change does guarantee 36 hour and 48 hour work weeks.

Art 23 Lunch periods and breaks increase in frequency due to the longer shift. There shall now be two 30 minute lunch breaks. Because breaks are handled differently from crew to crew, rather than fix the break times, there is a pro-rated increase in the number of coffee breaks.

Art 24 One pay week will be 36 hours pay at straight time, any time worked in excess of the regularly scheduled hours in this pay week shall be paid at the appropriate overtime rate as laid out in Article 24 of this Collective Agreement.

The following pay week will be 48 hours, any time worked in excess of the regularly scheduled hours in this pay week will be paid at the appropriate overtime rate as laid out in Article 24 of this Collective Agreement. Time and one half the regular hourly rate will be paid for the 41st to the 48th hours worked in this pay week. If an employee does not work 48 hours in this pay week because of a paid holiday(s), bereavement, vacation or permission to be absent then the time and one half rate will apply to the last 8 hours worked.

Art 24 Shift Premiums shall be totaled for the current 28 day cycle (\$50.15) and paid as an average hourly premium (34 cents) on all 168 hours that form the basis of a 12 hour shift schedule over the same 28 day cycle.

Art 24 Overtime meal tickets will be issued after 12 regular hours.

Art 24 Shift exchanges have to be pre-authorized and will only be allowed with people from the crews on their days off. In no circumstances can they result in any person working more than 13 hours in any 24 hour period. The practice of "selling" shifts will not be allowed for people on a 12 hour shift system.

Art 25 Overtime as the result of a no-show shall be reduced to a maximum stay over of one hour. This one hour stay over may not apply to everybody. Failure on the Company's part to provide adequate shift coverage is not considered an emergency. It is therefore not an acceptable reason for breaking the law or the Collective Agreement.

Ltr 12 Employees on twelve hour shifts who qualify for Weekly Indemnity shall be paid as follows:

1. The current seven (7) day waiting period shall now be forty (40) hours of lost time.
2. The current Weekly Indemnity rate of \$675.00 per week is for the loss of forty (40) regular hours pay, this is equal to a rate of \$16.87 per hour.
3. This amount (\$16.87), shall be paid for each hour of lost time. If the lost time includes the eight (8) hours overtime in the forty-eight (48) hour week, a further four (4) hours at the rate of \$16.87 shall be paid.

Misc. T.A.S. call-in deadlines will be one hour before the start of day shift, and two hours before the start of night shift.

Misc. Voting privilege entitles employees scheduled to work day shift on the polling date, 4 hours off during polling hours so they may vote.

Misc. If a vote results in a 12 hour shift trial in areas that are not currently on 12 hour shifts, vacations that have already been approved will be honoured. The total number of hours taken will change to reflect Article 21 (Vacations) as outlined in these terms and conditions. If the shift system in place, at the time the vacation is to be taken, changes back to an 8 hour shift system, approved vacations shall be honoured, should the employee(s) desire.

If, as a result of a combination of vacations taken under both a 12 hour and an 8 hour schedule, less than a full week of vacation entitlement remains, this vacation must be taken at one time. The terms of Article 21 of the Collective Agreement shall apply with the appropriate adjustments to the dates specified in this article.

LETTER NO. 27 JOINT MODIFIED WORK PROGRAM

A UNION-MANAGEMENT PROTOCOL FOR THE REINTEGRATION OF EMPLOYEES WITH DISABILITIES INTO THE WORKFORCE

1. MODIFIED WORK COMMITTEE (“MWC”)

- A Modified Work Committee (“MWC”) will be established. The MWC shall consist of 2 members appointed by the company, 2 members appointed by the union, and 1 member who shall be the Chair and who shall be appointed by the Company. The union members of the MWC shall be compensated in accordance with the terms of the collective agreement at their applicable rate of pay and shall suffer no loss of earnings by virtue of their participation on the MWC. All office and administrative expenses of the MWC shall be borne by the Company, including the expenses incurred in obtaining such medical, ergonomic or other reports which the MWC may require, from time to time, as the case may be.

2. OBJECTIVES OF THIS PROTOCOL AND OF WORK OF MWC

- The Objective of the MWC is to facilitate and encourage the re-integration of employees with disabilities into the work force, in a co-operative, constructive and effective manner, consistent with the needs of the affected employee and the other employees in the bargaining unit, and the successful operation of the business.

3. EXPERT ADVICE AND REPORTS AVAILABLE TO MWC

- In order to achieve the Objective in paragraph 2, above, the MWC shall obtain such expert advice and reports from medical practitioners, ergonomists, etc., as the MWC may determine is necessary to complete its evaluation of the employee’s medical condition and/or the workplace, to determine whether the employee’s medical condition has stabilized, to evaluate options for appropriate accommodation as part of the return to work plan, and to monitor the employee’s successful reintegration into the workforce.

4. MWC PROTECTED BY CONFIDENTIALITY AND PRIVILEGE

- All activities and discussions of the MWC are confidential. None of the notes, or other documents or writings prepared by or for the MWC or obtained by the MWC, except medical reports about a worker and ergonomist reports about a worker or about the workplace, shall be compellable or produced at arbitration and no evidence will be elicited from any members of the MWC about the activities and discussions of the MWC, except as may be prescribed by law.
- However, the company and the union agree that either can produce documents of the activities and discussions of the MWC in connection with establishing or challenging the extent of the efforts of the union, company or employee to make reasonable accommodation subject to undue hardship and to conduct themselves reasonably in the effort to accommodate the employee with a disability whether that issue arises before a Board of Inquiry under the Ontario *Human Rights Code*, before a board of arbitration, or elsewhere.

5. MWC UNION MEMBERS ASSIST EMPLOYEE DISABILITY

- The employee in need of accommodation will contact the MWC and the MWC union representative(s) will assist the employee to understand the processes of the MWC,

the applicable time frames and what assistance and co-operation may be required from the employee.

6. MWC DECIDES IF EMPLOYEE HAS A DISABILITY OR REFERRAL TO UNION FOR POSSIBLE ADJUDICATION

- If all of the members of the MWC do not accept that the bargaining unit employee has a disability and is therefore entitled to accommodation subject to undue hardship, the matter may be resolved in accordance with paragraph 15, below.

7. MWC OBTAINS MEDICAL RESTRICTION/PRECAUTION INFORMATION

- The parties agree that the MWC must have a complete understanding of the employee's medical restrictions/precautions. Information will be obtained from the employee's family physician's report, the employee's specialist's report, other medical reports from health care professionals and from experts treating the employee and from such other sources as the MWC considers necessary.

8. MWC OBTAINS EMPLOYMENT HISTORY FOR JOB FUNCTION EVALUATION

- The MWC will review the employee's employment history including assessing the essential duties of the last job performed by the employee, the physical demands of the entire job and the physical demands of the essential duties.
- The MWC will review the work performed in the workplace in addition to the manner of dividing the work up into jobs and classifications.

9. MWC PREPARES "LIST I" – JOBS WHICH EMPLOYEE CAN PERFORM

- Where the MWC, assisted by the medical and other information reviewed, concludes that the last job is not suitable, the MWC will record on "List I" all jobs, the *essential duties* of which the employee can perform, having regard to his abilities and disability(ies). List I will be shared with the employee and his comments and input will be considered.
- Where there are some jobs identified on List I, the MWC will examine the undue hardship considerations, in accordance with paragraph 12, below.

10. MWC PREPARES LIST II – JOBS WHICH EMPLOYEE CANNOT PERFORM BECAUSE OF DISABILITY, IDENTIFYING ESSENTIAL DUTIES AND ACCOMMODATION POSSIBILITIES

- The MWC will identify on "List II" all jobs, the *essential duties* of which the employee cannot perform, having regard to his abilities and disability(ies), with a notation identifying what the *essential duty(ies)* is that the employee cannot do, and what accommodation if any would be required to assist the employee to be able to perform the essential duty(ies).

11. COLLECTIVE AGREEMENT PROVISIONS MAY SERVE AS A BARRIER

- The parties acknowledge that any collective agreement provision which may serve as a barrier for the employee to perform a job on List II shall be specifically noted and the

necessary accommodation identified. Subject to the undue hardship considerations in accordance with paragraph 12, below, no limiting factors, such as the configuration of jobs currently performed by employees, classification schemes, cost of equipment or training, convenience or inconvenience to the employer or other employees, disruption to the employer's business or system of production or disruption to other employees, will be considered in identifying the possible accommodations.

12. UNDUE HARDSHIP CONSIDERATION AND LEAST DISRUPTIVE APPROACH TAKEN INTO CONSIDERATION IN MWC RECOMMENDATION(S)

- The MWC will evaluate undue hardship considerations with respect to the required accommodation, if any, in assessing which of the jobs on Lists I & II are appropriate for the employee.
- The MWC will select the job(s) for the employee with a disability that requires the least accommodation, provided such accommodation will permit the employee to perform the essential duties of the job, having regard to factors such as the configuration of the jobs currently performed by employees, classification schemes, cost of equipment or training, convenience or inconvenience to the employer or other employees, disruption to the employer's business or system of production or disruption to other employees, including interference in the acquired seniority of another employee.
- Once it is clear to the MWC that the employee cannot perform any work in his pre-injury/illness job, and in his pre-injury/illness Line of Progression, the MWC shall recommend that the employee with a disability be considered for placement first in his/her own Department, and then in other Departments, and, subject to paragraph 13, below, on the basis that the employee with a disability shall not displace another employee with greater Plant Seniority.
- In addition, in fashioning its recommendations, the MWC will consider which of the potential placements are comparable to the last job performed by the employee in terms of compensation, classification and such other factors as the MWC considers appropriate.

13. EXCEPTION

- Except where such interference may be required to afford the employee with a disability with necessary accommodation to perform the only possible functions the employee can perform having regard to his ability, failing which the employee would be laid off and/or terminated from employment, the MWC shall not make a recommendation which results in the interference with another employee's seniority rights under the collective agreement.

14. EMPLOYEE HAS INPUT INTO RECOMMENDATION

- The Committee will include with its recommendation(s) to the company a description of the accommodation(s) required for the functions recommended for the employee and a recommendation about the duration of a trial period, if appropriate. In addition, the MWC shall rank its recommendations commencing with its most highly recommended option and ending with the least highly recommended option. A draft copy shall be provided to the employee for his comments not less than five working days before

submission of the recommendations by the MWC to the company. The MWC shall consider the employee's concerns and suggestions, if any, in the final recommendation made by the MWC to the Company.

15. DISAGREEMENT ABOUT WHETHER THE EMPLOYEE IS DISABLED

- Where the members of the MWC do not all agree that an employee has a permanent disability "because of handicap" as provided in section 10(1) of the Ontario *Human Rights Code*, that issue will be decided in accordance with the arbitration provisions under the collective agreement or pursuant to section 49 of the *Labour Relations Act, 1995*. The board of arbitration shall be requested by the parties to determine if the employee is entitled to accommodation "because of handicap". The parties shall request the board of arbitration to reserve jurisdiction to determine the nature of the required accommodation.

16. DISAGREEMENT ABOUT THE APPROPRIATE ACCOMMODATION

- Where the members of the MWC do not all agree on the required accommodation for an employee who is entitled to accommodation because of the employee's disability(ies), that issue will be referred for determination under the collective agreement or pursuant to section 49 of the *Labour Relations Act, 1995*. The board of arbitration shall be advised that there is not a dispute that the employee is a person who has a handicap within the meaning of section 10 (1) of the Ontario *Human Rights Code*. The board of arbitration shall be requested to determine whether the accommodation option(s) proposed by the company comply with section 17(2) of the Ontario *Human Rights Code* and if not, to direct the appropriate accommodation. In so determining, the board of arbitration shall consider the accommodation options considered by the MWC and such additional accommodation options as may be appropriate.

17. RIGHT TO GRIEVANCE PROCEDURE PRESERVED

- Where the company does not accept the recommendation of the MWC, an employee's right and the union's right to file a grievance in respect of the decision of the company in accordance with the grievance procedure under the collective agreement is not affected by this Protocol.
- Where the company does accept the recommendation of the MWC, an employee's right to file a grievance in respect of the decision of the company in accordance with the grievance procedure under the collective agreement is not affected by this Protocol.

18. ANNUAL REVIEW OF WORK OF MWC

- On December 31 of each calendar year, the MWC shall provide to the company and to the union an Annual Review of its work setting out information about the number of cases it has handled in the year, the disposition of each case and a follow up on each worker reintegrated into the workforce in accordance with its recommendations. The report may also include joint recommendation(s) for such changes to this Protocol as the MWC may consider advisable and which in their opinion will advance the Objective set out in paragraph 2, above.

**LETTER NO. 34
12 HOUR SHIFTS - MAINTENANCE**

This letter covers Rolling Mill Maintenance, Steelmaking Maintenance, Roll Turners and Janitors.

It is agreed that any amendments in this letter to the language in any article of LETTER NO. 24 of the Collective Agreement apply only to the employees referred to, and affected by, the schedule herein. Unless specifically substituted in this letter, the conditions of LETTER NO. 24 and the Collective Agreement shall apply.

For the purpose of this letter, substitute the fourth and fifth sentences of the third paragraph in LETTER No. 24 with:

“Notwithstanding any other conditions, the duration of the 12 Hour Shift period shall be from January 1st, 2005 until December 31st 2005. A vote shall be taken in December 2005 to determine the schedules to be worked for the following 12 month period.”

For the purpose of this letter, substitute the last sentence of the fifth paragraph that references Article 20 in LETTER NO. 24 with:

“In this case, he shall be paid an additional double time the regular rate for all hours worked.”

For the purposes of this letter, substitute the second sentence of the second reference to Article 21 in LETTER NO. 24 with:

“For the purpose of overtime availability, only actual vacation cycle days shall be booked as not available if the overtime list dictates that it should be that employees’ turn to be offered the opportunity.”

For the purpose of this letter, substitute the language in LETTER NO. 24 Article 21, 2nd reference, from the 2nd paragraph to the end of the article to read as follows:

“Where the vacation taken by a Maintenance “Shift” man results in the need for a replacement to cover the 12 hour shift, it will be filled in the following manner:

First, all attempts shall be made to cover the necessary shifts with overtime.

Secondly, if the necessary shifts cannot be covered with overtime, then a volunteer will be sought from employees in the department in the same trade and craft group as the vacationing employee, to go on the 12 hour shift schedule and cover the vacation period(s) as required.

Lastly, if the required coverage cannot be obtained with either of the first two methods, then the tradesman with the least job seniority in the respective group will be transferred to the 12 hour shift schedule to cover vacations as required.

In cases that result in the replacement shift man transferring to the 12 hour schedule, it will only be necessary to work night shifts that are actually being taken as vacation by the regular shift man. Occasions could arise where the transfer was made to provide coverage for vacations taken on day shift, but include night shifts in the same time frame, that are not being taken as vacation. In these instances, the replacement shall not be required to work the night shift with the shift man, but shall work day shift on the corresponding days.

Where an employee is transferred to the 12 hour shift pattern in the above manner, he will not be required to follow the schedule for two weeks in order to make up for any loss of pay suffered when scheduled for only 36 hours, instead of his regular 40 hours. In such case, he shall be entitled to a payment of four hours at straight time in addition to the 36 hours at straight time. This additional four hours shall not be required to be worked, and shall not count against any ability to work overtime in the same pay week.”

This letter covers Rolling Mills and Finishing Departments, Shipping, Billet Yard, Rolling Mill Services and Set-Up Shop.

It is agreed that any amendments in this letter to the language in any article of LETTER NO. 24 of the Collective Agreement apply only to the employees referred to, and affected by, the schedule herein. Unless specifically substituted in this letter, the conditions of LETTER NO. 24 and the Collective Agreement shall apply.

For the purpose of this letter, substitute the fourth and fifth sentences of the third paragraph in LETTER NO. 24 with:

“Notwithstanding any other conditions, the duration of the 12 Hour Shift period shall be from January 1st, 2005 until December 31st, 2005. A vote shall be taken in December, 2005 to determine the schedules to be worked for the following 12 month period.”

It is agreed that the 3 crew 12 hour shift shall first be worked on the schedule referred to as the Friday/Saturday schedule. If, by the Summer Shutdown, this schedule impedes the Company’s ability to maintain the affected Mill then the Mill working this schedule shall be transferred to the Thursday/Friday schedule.

Should the 12 Hour shifts be put into effect, notwithstanding the agreed to requirements, they shall remain in effect until the operating level of either of the Rolling Mills drops below three crews.

Should the above event occur, the parties agree to attempt to negotiate and agree to another shift pattern, failing this, the shifts will revert to the 8 hour shift patterns agreed to in the Collective Agreement.

For the purpose of this letter, substitute the last sentence of the fifth paragraph that references Article 20 in LETTER NO. 24 with:

“In this case, he shall be paid an additional double time the regular rate for all hours worked.”

For the purpose of this letter, add to the end of the third reference to Article 21 in LETTER NO. 24 the following:

“Where the 12 hour shift pattern is worked on a three crew basis, the Production Vacation Shutdowns referred to herein, shall commence at 8:00am on a Saturday and finish 336 hours later at 8:00am on a Saturday.”

For the purpose of this letter, add to the end of the first reference to Article 24 in LETTER NO. 24 the following:

“Where the 12 hour shift pattern is worked on a three crew basis, two out of every three pay weeks will be 36 hours pay at straight time, any time worked in excess of the regularly scheduled hours shall be paid at the appropriate overtime rate.

The third week will be a 48-hour pay week and will be paid at time-and-one-half for the 41st to 48th hours worked. If an employee cannot work 48 hours because of a Paid Holiday(s), bereavement, vacation or leave of absence, then eight hours will be paid at time-and-one half, and straight-time for the remaining regularly scheduled hours in that pay week.

Any time worked in excess of the regularly scheduled hours shall be paid at the appropriate overtime rate. The Parties understand that the regular shift pattern entitles an employee to a standard pattern of income, the Company will endeavor to minimize disruption to this income when transferring employees. Should circumstances arise wherein an employee is repeatedly and negatively impacted by such transfers the Parties will discuss remedies.”

For the purposes of this letter, substitute the second sentence of the second reference to Article 21 in LETTER NO.24 with:

“For the purpose of overtime availability, only actual vacation cycle days shall be booked as not available if the overtime list dictates that it should be that employees’ turn to be offered the opportunity.”

For the purposes of this letter, the downshift on the Friday/Saturday schedules shall be recognized as the Saturday day shift. To fill any overtime requirements, the following shall apply:

“The crew scheduled to start on dayshift the next day, Sunday, shall be the first to be offered this overtime on a rotating basis. All other overtime opportunities shall be offered in accordance with the Collective Agreement.”

It is agreed that the overtime parameters laid out in the Collective Agreement shall be adhered to as closely as is practicable. However, it is understood that, because of the scheduling differences, situations may arise that result in the equitability parameters being exceeded. In such a case, the parties agree to set aside the resolution component of the overtime parameters for a period of six months. If, after this period, the overtime exceeds the equitability parameters listed in the Collective Agreement, the parties shall meet and attempt to resolve this situation in as fair a manner as possible.

Failure to reach agreement in such matters shall allow either party access to the grievance procedure to resolve any inequity that has existed from 90 days prior to the end of the six month period.

HOW THE RIGHT TO REFUSE WORKS

Under section 43 of the Occupational Health and Safety Act, Ont, you have the right to refuse unsafe, unhealthy work.

If you have reason to believe the work is likely to endanger you or someone else, this is what you do.

SUPERVISOR

Investigates in the presence of the employee and the employee's representative, (Certified Representative, Safety Representative Committeeperson, Steward, etc.).

EMPLOYEE

If the worker still feels there are "reasonable grounds" to refuse, then they, their representative or the employer can call a government inspector.

INSPECTOR

Investigates the problem in the presence of the worker, their representative and a company representative, and decides whether there is or was a danger present.

EMPLOYEE

Pending the inspector's decision, the employee will remain in a safe place, unless assigned to reasonable alternative work. No other worker can be assigned pending inspector's decision unless advised of the refusal and reasons for it in the presence of a Certified Representative or Safety Representative Committeeperson, Steward, etc.

APPEAL

Section 61 allows 30 days to appeal the inspector's decision to the board – simply phone the Ontario Labour Relations Board.
